VACUUM CLEANERS

FV10

FV15

*Top class vacuum cleaners,
efficiency in performances and consumptions!*

 **FIMAP**[®]

FV10-15

FV10 is a 10 liter capacity vacuum cleaner that being compact and silent is especially suitable for small and noise-sensitive environments. It is equipped with a 800 W High Efficiency motor. The foot switch makes its use ergonomic and effort-less and the convenient handle make it easy to move. It is equipped with 4 different filters to get always excellent performances.

FV15 is a 15 liter capacity vacuum cleaner, effective and silent thanks to the High Efficiency 800 W motor and the Energy Saver technology that allows to reduce consumptions and noise level, making it suitable for noise-sensitive areas such as hotels, hospitals, nursing homes and nurseries.

The aluminum tubes are robust and lightweight, thus reducing the fatigue and making cleaning easier. Besides, they are equipped with air flow adjuster

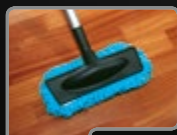

The Energy Saver Technology reduces the energy consumption and lowers the noise level, allowing to work even in sensitive environments such as hospitals or nursing homes (only for FV15)

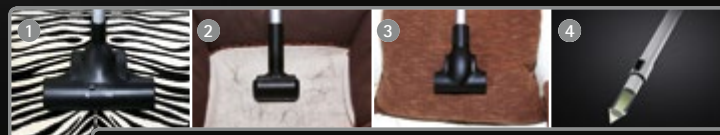

Thanks to the fast replacement system the cable can be easily changed in case of damage

STANDARD

Parquet nozzle

OPTIONAL

- 1 The turbo nozzle increases the cleaning performances on carpets thanks to the rolling head that opens the fibres thus permitting a deep cleaning action
- 2 The pet nozzle is properly made to remove pet hairs from upholsteries, that are raised from the surface thanks to the roller brush
- 3 The mini turbo nozzle is perfect for deep cleaning of small textile areas, like sofas and armchairs
- 4 The telescopic tube made of aluminum is lightweight and height-adjustable: it guarantees a comfortable use avoiding back straining and it optimizes the use of the other accessories
